

CIT-*e*-NET *Local Government Internet Solutions*

Is your municipality providing it's residents with the best level of municipal services available for their tax dollars?

Advance your municipal website to a higher-level and allow it to be an investment by enabling you to offer electronic municipal services. Upgrade your website to be interactive & dynamic, rather than static & informational-only, by integrating Cit-e-Net Internet-based application modules into the website quickly and seamlessly. Enable each department to have it's own sub-website and manage it's own content. Allow your municipality to be the recipient of Cit-e-Net Internet solution benefits such as:

- **Flexibility**
 1. *Modular based solutions enable you to select the modules that you want to implement*
 2. *Integrate seamlessly into your current website*
